#### **DETAILED ACTION**

### Continued Examination Under 37 CFR 1.114

1. A request for continued examination ("RCE") under 37 C.F.R. §1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection (Paper No. 10). Since this application is eligible for continued examination under 37 C.F.R. §1.114, and the fee set forth in 37 C.F.R. §1.17(e) has been timely paid, the finality of the previous Office action (Paper No. 10) has been withdrawn pursuant to 37 C.F.R. §1.114. Applicant's submission filed on October 3, 2003 (Paper No. 12) has been entered.

#### Acknowledgements

- 2. In accordance with the RCE noted above, the after final submission has been entered. Accordingly, claims 1-4 remain pending.
- 3. This Office Action is written in OACS. Because of this, the Examiner is unable to control formatting, paragraph numbering, font, spelling, line spacing, and other word processing issues. The Examiner sincerely apologies for these errors.

## Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rapoport et. al. (U.S. 5,262,938) ("Rapoport")in view of Fong et. al. (U.S. 6,188,406 B1)("Fong"). Rapoport discloses as previously discussed. In view of Applicant's arguments, Rapoport does not disclose displaying alternatives for the selected item. Fong teaches using a scroll menu with a default entry to display a listing of items.

It therefore would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Rapoport as taught by Fong to so that when the menu item is selected, a list of items is displayed using a scroll bar with the desired items centered between the top and bottom of the window. Such a modification would have helped remind users of other items by providing a graphical representation of both desired and alternative items.

6. The Examiner maintains his positions regarding claim interpretations as noted in the Previous Office Actions.

# Response to Arguments

7. Applicant's arguments filed with his amendment on October 3, 2003 (Paper No. 12) have been fully considered but are most in view of the new grounds of rejection.

# Allowable Subject Matter

8. Claim 4 is allowed.

#### Conclusion

- 9. The following references are pertinent to Applicant's disclosure: Bates et. al. (U.S. 5,528,259).
- The following two (2) citations to the Manual of Patent Examining Procedure ("MPEP") apply to this Office Action: MPEP citations to Chapters 200, 700, 1800, and 2100 are from the MPEP 8th Edition, Rev 1, February 2003. All remaining MPEP citations are from MPEP 8th Edition, August 2001.
- 11. In accordance with the USPTO's goals of customer service, compact prosecution, and reduction of cycle time, the Examiner has made every effort to clarify his position regarding claim interpretation and any rejections or objections in this application. Furthermore, the Examiner has again provided Applicant(s) with notice—for due process purposes—of his position regarding his factual determinations and legal conclusions. The Examiner notes and thanks Applicant for his "Remarks" (Paper No. 14 beginning on page 6) traversing the Examiner's positions on various points. If Applicant disagrees with any additional factual determination or legal conclusion made by the Examiner in this Office Action whether expressly stated or implied, the Examiner respectfully reminds Applicant to properly traverse the Examiner's position(s) in accordance with 37 C.F.R. §1.111(b) in his next properly filed response. By addressing these issues now, matters where the Examiner and Applicant agree can be eliminated allowing the Examiner and Applicant to focus on areas of disagreement (if any) with the goal towards allowance in the shortest possible time. If Applicant has any questions regarding the Examiner's positions or has other questions regarding this communication or even

previous communications, Applicant is strongly encouraged to contact Examiner Andrew J. Fischer whose telephone number is (703) 305-0292.
